

Technology Innovation Proposal

Name of the technology or initiative to be implemented or tested.

Participants to be involved in pilot and rollout.

DSU locations involved (Web, International, Gates Distance Learning Center, or campus sites)

DSU strategic goal to be addressed (support for existing university goals)

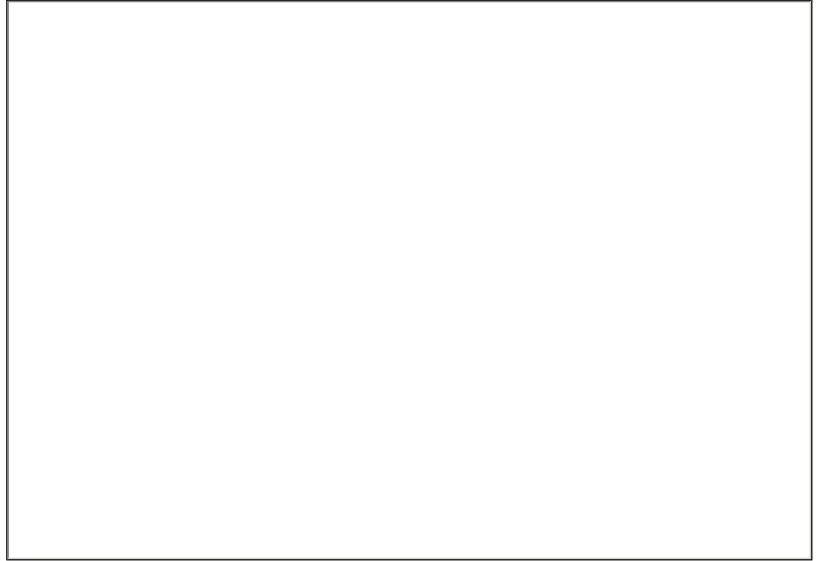

Pedagogical objectives to be met

Instructional interactions to be enhanced (student-faculty, student-student, student-content, faculty-experts-research community)

Projected costs for technology to be deployed

Implementation Plan

Timeline (timeframe for promotion, orientation/
training, pilot, rollout, and assessment plans)

A large, empty rectangular box with a thin black border, intended for the user to write the timeline plan.

Assessment plan (formative and summative
evaluations - include metrics for successful
attainment of DSU strategic goal, pedagogical
objectives, and enhanced interactions)

A large, empty rectangular box with a thin black border, intended for the user to write the assessment plan.

Participant training plan (how do you plan to
develop your skills using the technology)

A large, empty rectangular box with a thin black border, intended for the user to write the participant training plan.

Program Information

The Distance Education and Instructional Technology Department (DEIT) supports the effective use of technology to enhance the quality of instruction. DEIT solicits new technology implementation ideas from faculty. DEIT has created an application process that allows DEIT to work closely with faculty, programs, and divisions to implement and evaluate new technology ideas.

Successful applicants will demonstrate a clear commitment to planning, implementing and reflecting on instruction that leverages technology to benefit student learning. Successful applicants will also articulate a plan for sharing what they've learned as a result of their participation in our program with their colleagues.

Applications will be evaluated using a rubric. Please [review the rubric](#) carefully before completing the application, as applications that do not draw clear connections to the rubric will not be considered.

Faculty whose proposal includes iPads may sign up for the iPad loan program. Faculty will be expected to do the following:

- * Schedule and keep an appointment to pick up the iPad from the DEIT office
- * Participate in a 20-minute orientation/training session
- * Sign a loan agreement
- * Complete an exit survey
- * Return the iPad to the DEIT offices by the due date specified in the agreement
